UCLA has posted a bunch of signs near their “media check in” which are very close to the statements they’ve made regarding the encampment.

The image shows two blue informational signs standing on a brick-paved area. The sign on the left contains the following text:

University of California systemwide policy guidance directs UCLA not to request law enforcement involvement preemptively, and only if absolutely necessary to protect the physical safety of our campus community.

Thank you for helping Bruins uphold our long history of peaceful protests.

The sign on the right contains the following text:

UCLA IS GUIDED BY THESE EQUALLY IMPORTANT PRINCIPLES:

1. Support the safety and wellbeing of Bruins
2. Support the free expression rights of our community
3. Minimize disruption to our teaching and learning mission

Thank you for helping Bruins uphold our long history of peaceful protests.
